

AMENDMENT(S) TO THE CLAIMS

1. (Currently Amended) A chandelier suitable for mounting on a patio table
2 umbrella having a canopy supported by a plurality of ribs that extend radially from the upper end
of a vertical post and a plurality of radially extending struts connected to the ribs, the chandelier
4 comprising:

6 a frame configured to surround the post;

8 a plurality of rigid hangers for each connecting the frame to a corresponding one of the
struts and uniformly suspending the frame beneath the canopy at a plurality of circumferentially
spaced locations at a predetermined safe distance above a horizontal table surface through which
the post extends; and

10 a plurality of means mounted on the frame for providing decorative illumination.

2. (Original) The chandelier of Claim 1 wherein the frame is configured in the form
2 of a ring.

3. (Canceled)

4. (Original) The chandelier of Claim 1 and further comprising a plurality of holders
2 connected to the frame for each removably receiving a corresponding one of the decorative
illumination means.

5. (Original) The chandelier of Claim 1 wherein the decorative illumination means
2 is a candle.

6. (Original) The chandelier of Claim 1 wherein the decorative illumination means
2 is an oil lamp.

7. (Original) The chandelier of Claim 1 wherein the decorative illumination means
2 is an incandescent lamp.

8. (Previously Amended) The chandelier of Claim 1 wherein the decorative
2 illumination means and the hangers are interspersed around the frame.

9. (Original) The chandelier of Claim 1 wherein the frame is configured in the form
2 of at least one cylindrical metal ring with attached artistic elements.

10. (Previously Amended) The chandelier of Claim 1 wherein the hangers each
2 comprise double ended hooks.

11. (Previously Amended) A combination collapsible umbrella, chandelier, and patio
2 table, comprising:

4 a patio table having a horizontal table surface and a hole in the center of the surface;

5 an umbrella having a canopy supported by a plurality of ribs that extend radially from the
upper end of a post and a plurality of radially extending struts connected to the ribs, the post
6 extending vertically through the hole in the center of the horizontal table surface;

8 a frame surrounding the post;

10 a plurality of double ended hooks each connecting the frame to a corresponding one of
the struts and uniformly suspending the frame beneath the canopy at a plurality of
12 circumferentially spaced locations at a predetermined safe distance above the horizontal table
surface through which the post extends; and

12 a plurality of luminary devices mounted on the frame capable of providing decorative
illumination.

12. (Original) The combination of Claim 11 wherein the frame is configured in the
2 form of a ring.

13. (Original) The combination of Claim 11 and further comprising a plurality of
2 holders connected to the frame for each removably receiving a corresponding one of the luminary
devices.

14. (Original) The combination of Claim 11 wherein the luminary devices are
2 candles.

15. (Original) The combination of Claim 11 wherein the luminary devices are oil
2 lamps.

16. (Original) The combination of Claim 11 wherein the luminary devices are
2 incandescent lamps.

17. (Previously Amended) The combination of Claim 11 wherein the luminary
2 devices and the double ended hooks are interspersed around the frame.

18. (Original) The combination of Claim 11 wherein the frame is configured in the
2 form of at least one cylindrical metal ring with attached artistic elements.

19-20 (Canceled)
